Resume

PROJECT

Project_1: -

Project Title: Soldier Security Enhancement with Real-Time Wireless Embedded Systems

Technologies Used: Embedded Systems, Sensors, Machine Learning, Wireless Communication

Project Description:

Developed a real-time embedded system to enhance soldier security and combat effectiveness. The system integrates sensors to monitor vital signs, environmental conditions, and hand gestures. Advanced algorithms analyze data to detect threats and provide alerts, while actuators enhance hand dexterity and strength for improved performance.

Key Features:

- Real-time health and environment monitoring
- Threat detection and alert system
- Gesture recognition for improved control
- Wireless communication for data transmission

Project_2:

Project Name: Netflix Clone

Technologies Used: Django, Python, HTML, CSS, JavaScript, SQL

Project Description:

Developed a Netflix-inspired web application that allows users to browse, search, and stream movies and TV shows. Implemented user authentication, subscription plans, and a recommendation system. Designed a responsive UI with a dynamic content display.

Key Features:

- User authentication (Sign-up, Login, Logout)
- Subscription-based content access
- Movie and TV show categorization
- Search and filter functionality
- Watchlist and user preferences
- Video streaming integration
- Admin panel for content management.

STRENGTHS

- Quick Learner and Adaptive to New Technologies
- Strong Problem-Solving and Analytical Skills
- Good Understanding of Full-Stack Development.
- Ability to Work in a Team and Collaborate Effectively.

HOBBIES

- Playing Cricket
- Browsing internet

Resume
